WORK EXPERIENCE

Medibuddy

Associate Product Designer

Bengaluru

06/2025 - Present

- Improved doctor booking conversion to 32% and reduced null searches from 40% to 5% by redesigning Offline Consultations search and filters with symptom-based discovery and auto-suggestions, driving ₹3 Cr+ monthly GMV.
- Led the design of MB Pay (Dineout for Healthcare), a first-of-its-kind reimbursement feature, and built its MVP using AI.
- Built a Chrome extension using Claude to simplify QA auditing, reducing manual effort by 60% through faster issue reporting and QA handoff workflows.
- Designed and built the About Us landing page using Claude and Vercel, leveraging AI-assisted development to rapidly iterate, prototype, and deploy a responsive web experience.
- Designed healthcare experiences serving 20 lakh+ monthly active users across multiple product surfaces.

Medibuddy

Product Design Intern

Bengaluru

12/2024 - 05/2025

- Increased cashless reorder adoption to 23% and drove ₹12 Cr monthly GMV by redesigning reimbursement-to-cashless healthcare journeys using user research and behavioral insights.
- Achieved 95% design system adoption by optimizing component libraries, tokens, and reusable patterns.
- Led the redesign of the Vision Care feature, increasing conversions by 7% and driving ₹54 Cr in GMV within 6 months.
- Conducted usability testing, analyzed behavioral data, and incorporated customer feedback to improve engagement and conversion outcomes.

PERSONAL PROJECTS

GrowHive

11/2024 - 12/2024

- Growhive is a platform for students and professionals to learn new skills, expand their network, and receive career opportunities.
- Designed the entire product experience—mobile apps (iOS & Android) and a marketing website.

Verdu

01/2024 - 02/2024

- Eco-Friendly Shopping App with Integrated Sustainability Education
- Designed Verdu, a sustainability-focused mobile app aimed at empowering users to make eco-friendly choices in their daily lives.
- Designed the UI/UX of the app to create an intuitive and engaging user experience, incorporating educational content on sustainability practices.

EDUCATION

Dayananda Sagar University

B.Tech in Computer Science Engineering (CGPA - 7.25)

Bengaluru

12/2020 - 05/2024
