Workflow Automation, Conversational UX, AI-assisted Workflows, Prompt Systems

EDUCATION

Bachelor's of Technology, CSE

Dayananda Sagar University
2020 - 2024

RECOGNITION & AWARDS

Medibuddy

Star of the Month - Feb'25

PROFESSIONAL EXPERIENCE

Associate Product Designer

MediBuddy ▪ 06/2025 - Present

- Designed the **Hospital Profile Page** to improve **hospital discoverability**, build user trust, and enable **easier** doctor discovery and appointment booking.
- Built a **Chrome extension** using Claude to simplify QA auditing, **reducing manual effort by 60%** through faster issue reporting and QA handoff workflows.
- Designed the Offline Consultations search and checkout experience at MediBuddy, reducing **null searches from 40% to 5%** and **improving** search conversion from **18% to 24%** through symptom-based search and auto-suggestions.
- Designed healthcare experiences serving **20 lakh+ monthly active users** across multiple product surfaces.

Product Design Intern

MediBuddy ▪ 12/2024 - 05/2025

- Increased cashless reorder adoption to 23%** and **drove ₹12 Cr monthly GMV** by redesigning reimbursement-to-cashless healthcare journeys using user research and behavioral insights.
- Achieved 95% design system adoption** by optimizing component libraries, tokens, and reusable patterns.
- Led the redesign of the Vision Care feature, **increasing conversions by 7%** and driving **₹54 Cr in GMV** within 6 months.
- Conducted usability testing, analyzed behavioral data, and incorporated customer feedback to improve engagement and conversion outcomes.

PERSONAL PROJECTS

GrowHive

- Growhive is a platform for students and professionals to learn new skills, expand their network, and receive career opportunities.
- Designed the entire product experience, mobile apps (iOS & Android) and a marketing website.

Verdu

- Eco-Friendly Shopping App with Integrated Sustainability Education
- Designed Verdu, a sustainability-focused mobile app aimed at empowering users to make eco-friendly choices in their daily lives.
- Designed the UI/UX of the app to create an intuitive and engaging user experience, incorporating educational content on sustainability practices.
